NEW KLEIBER COLLECTIONS

Orgatec 2024

Kleiber presented 4 new collections at this year's Orgatec expo in Cologne. The furniture, which was very popular among the event's visitors, was created in cooperation with renowned designers: Ciani Design Studio, Grynasz Studio and Ronald Straubel.

Kleiber furniture, known for its excellent quality, comfort and attention to detail, can be found not only in Polish office buildings, but also in hotels and corporate offices in many European Union countries. The company's products are valued for their innovative design, which combines modernity with practicality to create comfortable usable spaces.

With years of experience and knowledge in furniture production, Kleiber provides solutions that serve customers for years while maintaining full functionality and comfort. Each product is created with the highest care to provide users with comfortable seating both in offices, waiting rooms and other public spaces.

About the company:

Samoo

Elegance and comfort in one

The Samoo collection is a combination of comfort and light form, which was recognized in the prestigious Must Have contest during the Lodz Design Festival. The design by Ronald Straubel harmoniously combines elegance with modern style, while maintaining maximum comfort. The ergonomic seat and backrest ensure comfort even with prolonged use, making the collection ideal for offices, hotels, restaurants, as well as home interiors.

Frame

Minimalist elegance inspired by the Bauhaus and modernism

The Frame collection combines modern minimalism with functionality, and the oval theme as a guiding element gives it a unique character. The project was created by Grynasz Studio, a multidisciplinary design team founded by Marta Niemywska-Grynasz and Dawid Grynasz. It includes flower pots, tables and mobile screens, making it a versatile solution for office, reception and study spaces. The collection meets the needs of neurodiverse people, thanks to the possibility of installing special screens. Made of high-quality materials, Frame furniture is not only durable, but also designed with the environment in mind - minimized of staples, easy disassembly and recyclability are important aspects of this collection.

Nebula

Minimalism and comfort in harmony

The Nebula collection, like Frame, was also created in collaboration with Grynasz Studio. It is a perfect combination of minimalist design and exceptional functionality. Characteristic details, such as elegantly designed legs and bold kedra, give it a unique style. Nebula offers a wide selection of elements - armchairs, sofas, tables, tables and modules with mediaports - which ensures versatility in arrangement. In addition, a system of seat-mounted screens provides excellent acoustics, making the collection ideal for office and public spaces. Made from high-quality materials, the furniture is designed with recycling in mind, with minimized staples and easy disassembly. Thanks to its elevated design, as well as the possibility of installing an additional metal armrest, Nebula furniture is an excellent choice for seniors.

Fino

Style and functionality in any space

The Fino collection, designed by Ciani Design Studio, is a versatile chair ideal for use in conference rooms, hotels and restaurants. Available in three options - fully lacquered, fully upholstered or with an upholstered seat - Fino combines style with comfort. The sturdy 4-spoke powder-coated base guarantees durability, and the chair's compact dimensions allow it to be used even in small spaces, making it an excellent choice for a variety of interiors.
